

BIKASHIT BARUAH

Operations & Supply Chain Analyst | OTIF, Inventory & Vendor Analytics

+91 70020 50092 | bbaruah14@gmail.com | Bengaluru, Karnataka (relocating) | Open to Pan-India roles
[LinkedIn](#) | [Portfolio](#) | [GitHub](#)

Professional Summary

Operations and supply chain professional with 4+ years of hands-on experience in transport operations, FMCG distribution and pharmacy inventory, now applying SQL, Power BI and Python to supply chain decisions. Built a 5-state FMCG distribution network from scratch, delivered 233% YoY revenue growth through demand analysis, inventory planning and weekly MIS reporting, and coordinated 1,000+ vehicles and 30+ vendors with zero operational failures. Portfolio includes predictive OTIF risk analytics, procurement analytics and a SQL delivery-performance study on 96K real orders.

Technical Skills

Supply Chain & Operations: OTIF, Inventory Planning, Demand Forecasting, Procurement Analytics, Vendor & SLA Management, Route Optimisation, Distribution Management, 3PL Coordination

BI & Reporting: Power BI (Desktop, Service), DAX, Power Query (M), Advanced Excel, Data Modelling, Data Visualization, Dashboards, MIS/KPI Reporting

SQL & Programming: SQL, PostgreSQL, MySQL, Microsoft SQL Server, CTEs, Window Functions, Python (NumPy, pandas, Matplotlib, Seaborn), Data Cleaning

Machine Learning & AI: Machine Learning, scikit-learn, Model Validation, FastAPI, n8n Automation, RAG, Prompt Engineering, LLM Evaluation

Business Analysis: Requirements Gathering, KPI Definition, Stakeholder Management, Root Cause Analysis, Process Improvement, Data Storytelling

Tools: eVitalRx ERP, Salesforce, SPSS, Git/GitHub, MS Office Suite

Professional Experience

Transport Department, Government of Assam

Jan 2026 – Present

Assistant Enforcement Inspector (Transport Operations)

Guwahati, Assam

- Performed capacity, route and on-time delivery (OTD) analysis for 1,000+ vehicles across 200+ km state-level networks, supporting deployment planning for major multi-site events.
- Managed 30+ transport vendors through onboarding, contract negotiation, SLA/KPI tracking and cost control under time-critical conditions.
- Used live dispatch and vehicle-tracking data to resolve escalations in real time, achieving zero operational failures across all deployments; maintained daily operations reporting.

Baruah Medicos

Jun 2024 – Dec 2025

Business Operations & Inventory Manager (Part-Time)

Digboi, Assam

- Grew monthly sales from INR 45,000 to INR 1.5 lakh (233% YoY) through demand analysis, weekly MIS reporting and renegotiation with 15+ suppliers.
- Used eVitalRx ERP and reorder-level analysis to eliminate critical stockouts and cut overstock by about 20%, with same-day fulfilment on 100% of emergency orders.
- Built weekly MIS reports tracking stock turnover, procurement cost, reorder levels and vendor KPIs to guide purchasing decisions.

Rhinobrews and Borjan Tea

Nov 2022 – Dec 2025

Co-Founder, Operations & Supply Chain (Part-Time)

Assam (5-state network)

- Built an FMCG distribution network from scratch across 5 states: 15+ suppliers, 30+ B2B wholesalers, 100+ retail outlets and 2 distribution centres.
- Generated INR 25–30 lakh annual revenue through B2B and D2C e-commerce channels, managing order processing, 3PL and last-mile courier coordination.
- Designed inventory and replenishment routines and route-optimised dispatch to keep on-time delivery consistent with a lean team.

Saint-Gobain India Pvt. Ltd.

May 2022 – Sep 2022

Key Account Manager

Kolkata, West Bengal

- Managed facade project accounts across Northeast India and Kolkata, coordinating BOQ, specification, design and post-order execution with contractors and architects.

JLL

Apr 2021 – Jun 2021

Research Intern

Kolkata, West Bengal

- Analysed real estate market data in Excel and contributed to market intelligence reports on the Kolkata property market.

Earlier roles: Teacher, Little Angels School (May 2018 – Jun 2019); Apprentice, Production, Indian Oil Corporation Ltd., Digboi (Apr 2017 – Apr 2018).

Analytics Projects

NorthEast HealthLink: OTIF Risk Control Tower (Synthetic)	Sep 2026 – Oct 2026
<i>Python, scikit-learn, SQL, Power BI, DAX, n8n</i>	Live Demo · Power BI Report
– Built an early-warning system for a simulated pharma distributor (100K orders, 4 warehouses) that flags orders likely to arrive late or incomplete; checking just the top 25 flagged orders a day catches 69% of failures, nearly 4× better than random checks (18%). – Uncovered a 14-point gap between on-time-in-full delivery (79%) and the 93% target, worth INR 17.3 crore in failed orders across 156 of 200 customers, and traced every failure to its root cause (stock, supplier, picking, carrier or monsoon delays).	
ProcureAI FMCG: Procurement Analytics (Synthetic)	Sep 2026 – Oct 2026
<i>SQL, Power BI, DAX, RAG</i>	Case Study · Power BI Report · Code
– Defined the procurement questions and acceptance checks, then built a PostgreSQL warehouse (1.1M rows, 68 SQL tests) and a live 9-page Power BI report with 32 DAX measures and 5 row-level security roles; all 28 KPIs reconcile to SQL. – Ranked invoice exceptions and cited contract pages from 402 PDFs for human review (151/151 RAG test cases); reported limits openly: 56% accuracy on unseen questions, and risk models did not beat simple baselines.	
Olist Delivery Performance Analysis (Real Data)	Sep 2026 – Oct 2026
<i>PostgreSQL, MySQL, Power BI, DAX</i>	Case Study · Power BI Report · Code
– Analysed 96,478 real delivered orders using CTEs and window functions after data-quality checks; late orders averaged 2.27 vs 4.29 stars, and 1–2 star reviews rose from 9% to 62%. – Found 72% of late orders were shipped on time by sellers and one lane (SP to RJ) held 17.7% of lateness; recommended lane-level carrier review and peak-capacity planning. – Published a 6-page Power BI report (Olist Delivery 360) with 90+ DAX measures and year-over-year benchmarks; every headline KPI reconciles to the SQL results.	
Business Insights 360 (Codebasics Course)	Aug 2026 – Sep 2026
<i>Power BI, DAX, Power Query, SQL</i>	Power BI Report
– Built a 7-view Power BI report on about 4M rows covering Finance, Sales, Marketing and Supply Chain, with a star-schema model and reusable DAX measures.	

Education

Management Development Institute (MDI) Murshidabad	Aug 2020 – May 2022
<i>PGDM (Dual Specialisation: Operations & Marketing); SGPA 7.2</i>	<i>West Bengal</i>
Dibrugarh University	Jul 2013 – Jul 2016
<i>B.Sc. (Hons) Physics; 81.43%</i>	<i>Assam</i>

Certifications

- SQL Beginner to Advanced for Data Professionals, Codebasics (Oct 2026): 1.5M+ record business analytics dataset; final exam score above 70%
- Get Job Ready: Power BI Data Analytics for All Levels 3.0, Codebasics (Sep 2026)
- Excel: Mother of Business Intelligence, Codebasics (Sep 2025)
